Condition Monitoring Of Machinery In Non-Stationary Operations

The main objective of the CMMNO 2014 conference is to bring together the scientific community to discuss the major advances of condition monitoring of machinery in non-stationary conditions.

Industrial contest

A contest on non-stationary signals will be organised in collaboration with the industry. Prizes will be awarded to academics and professionals. For more information, visit our website on <http://cmmno2014.sciencesconf.org/>

Important Dates

Abstract submission: June 1 st , 2014

Notification of acceptance: July 15 th , 2014
